## Dermatox

### A 3-minute skin detoxifier

Draws Impurities and toxins out of the skin within three minutes. This paramedical formulation is suitable for the face and body.

Dermatox is a vaporizing agent that converts impurities to a gas. The natural sea salt contained in Dermatox draws impurities from the skin removing poisons and free radical causing pollutants from the epidermal layers of the skin.

Although Dermatox is relatively odourless, strong odours may be present when Dermatox is applied to extremely unhealthy or toxic skin due to the vaporizing action. However the odour will disappear with rinsing.

In just one treatment this stress free detox program leaves the skin refreshed and revitalised.

Dermatox is a rich source of minerals and potassium, which is essential in assisting the prevention of infection.
