Nite Firming Crème

Nite firming crème is a specialised crème that repairs and fights the signs of ageing. Using a multitude of active specialised ingredients, vitamin C and calcium ions, Nite Firming Crème penetrates deep into the skin, boosting natural collagen production and restoring firmness and elasticity.

The Danné Nite Firming Crème has long been known for its collagen enhancing absorbable Vitamin C for collagen strengthening while the client is sleeping. It also has the added benefit of super pycnogenols called Proanthocyanides to the formula for more power packed protection and synergism. These are a super antioxidant 50 times more powerful than vitamin E, used to stop the destructive damage of free radicals.

The skin becomes progressively firmer with each application. Contains maximum amounts of essential fatty acids, vitamins, pycnogenols and super antioxidants. Formula includes grape pip extract for the most potent age-fighting home treatment available.

May be applied around the fragile eye area and is particularly effective on the neck, décolleté and jowls.

The skin will be noticeably firmer and smoother in 14 days.

Size	ml	Retail Prices
Small	15ml	
Large	60ml	

Nite Firming Crème is available through all Danné clinics
For your nearest Danné clinic contact Danné SA: 011 262-6120

Ingredients

Ingredient	Action
Water (aqua)	H ₂ O. The principle wetting agent in all Danné Transdermal Cremes.
Safflower Oil	A natural oil contains glycerides, stearic, oleic and linoleic acids. Used in base crèmes and lotions as a natural lipid.
Squalane	Lipid soluble carrier of other ingredients. Contains vitamin E. Is a lubricant.
Aloe barbadensis	A plant native to arid climates. It is used to expel impurities from the skin. It is mildly antiseptic, analgesic and acts as a blood coagulant.
Magnesium Ascorbyl Phosphate	One of the principle stabilized ascorbic acids. (Vitamin C)
Grape Seed Extract	Contains powerful anthocyanins as anti-oxidant. Contains carotenes, choline, vitamins A, B, B2, C and minerals. Anti-inflammatory, reduces capillary permeability (strengthen)-detoxifying due to blood resemblance.
Grape Seed Extract	Contains powerful anthocyanins as anti-oxidant. Contains carotenes, choline, vitamins A, B, B2, C and minerals. Anti-inflammatory, reduces capillary permeability (strengthen)-detoxifying due to blood resemblance.
Aspartic Acid	A roborant, helps to strengthen tissues, capillaries, etc.
Tocopherol	Natural form of vitamin E complex. Available from many plant and fish sources. It's the most powerful anti-oxidant.
Phospholipids	Found in all living systems as the basis for biological membranes. Consists of a glycerol backbone, a phosphate group and two long chains that are hydroscopic and hydrophilic.
